First Quarter 2019 Newsletter

The Next Step After On My Own

Whether you started with a Chip’s Kids account at an early age, or you found your way to your On My Own account on **your** own, ITCU strives to provide an account that is ideal for you at every step of your financial career. But as you get closer to aging out of the On My Own account, it will be a good time to start considering what next account option would be the best fit for your financial goals.

Fortunately, ITCU has a variety of checking account* types to consider, each with their own set of benefits and features. For example, a Momentum One Checking Account is the perfect introductory premier checking account for members looking for some awesome features, such as cell phone

protection and ID theft monitoring services, while Momentum Plus Checking extends those same benefits to multiple members of the same household. There are other choices to consider, too, and a member of the ITCU staff can help you find the checking account that is a perfect fit.

The same can be said for a savings account, as well. A traditional savings account is generally ideal for most members, but starting this month, ITCU is introducing a new Save to Win Savings Account[†], which potentially rewards members with cash prizes just for saving money! The more you save in the account, the more entries you will have for the monthly and quarterly cash drawings!

No matter what account options sound like the perfect fit for your finances, ITCU will be there to assist your decision making process. Visit your local branch, or find us online to get started!

*(*Complete checking account details, including possible requirements and fees, may be found at www.itcu.org/checking.
†For rules, requirements and participating states, please visit www.itcu.org/save-to-win.)*
