# Managing your Money is Easier with Online Banking

Being connected to the world around you is more important than ever these days, whether for social events, the latest news, or getting directions (and traffic updates!). Having access to your accounts is just as essential, and with free Online and Mobile Banking options from ITCU, it's never been easier to manage your money wherever you roam.

Enrolling in Online Banking (OLB) is so easy and so convenient. Once you're signed on, you can review

your account balances and transactions, and also take advantage of additional features like:

- Person-to-person payments are made possible with **Popmoney**<sup>®</sup>, a terrific option to send funds to a friend that paid for lunch when you forgot your wallet or phone. Or, if you're looking to move funds from another financial institution to your ITCU account, you can use the External Transfer feature.
- Manage all of your accounts and savings goals, and tag your expenses through **Trends**, our new personal financial management tool.
- Mobile Banking users can also enjoy **Credit Sense**<sup>SM</sup>, a service that provides your credit score, as well as access to informative resources, such as blog articles, videos and special offers from ITCU.
- Paying bills is a quick and easy process, and gives you the option to even set up payments for a future date or even same day/next day for some payments!

For convenient access to your account information, either on your laptop, tablet or mobile device, consider signing up for Online and/or Mobile Banking. Our Member Care team, available at **(800) 337-3328, option 5**, can help get you started and answer any questions you may have.
