News just  
for YOU!

In today's world there is so much to do online: play games, watch videos, talk with friends and family, and more!

But remember, while the Internet brings us so much, we still have to be careful when logging on.

To keep yourself safe when going onto the Internet, keep these tips in mind:

1. Always tell your parents/guardian when you go online: this way they know and can help you if needed.
2. Do not talk to strangers: as in the real world, if you do not know the person, do not talk to them.
3. Do not share private information: your phone number, address, passwords or even your real name should never be shared. Bad guys online can steal this information and cause trouble.
4. On social media (Instagram, Tik Tok, Snapchat, etc.), remember that while the apps are meant to be fun for all, you should not be mean or a bully.
5. Everyone deserves to feel safe and comfortable online: If at any time you see something, hear something, or if someone is bothering you...go tell your parents/guardians right away!

By following these tips and tricks, you can surf the Internet in style and safely!

Share your thoughts, ideas or questions with Chip but be sure to get your parents' or guardians' permission first. You can send Chip a letter to PO Box 250169, Plano, TX 75025 or an email at [chip@itcu.org](mailto:chip@itcu.org)! Chip looks forward to hearing from you!
